

Home Avenue Bridge

Village of Oak Park, IL

Type: **Steel true arch**
Services: **Conceptual and preliminary,
design, community participation**
Cost: **\$15 million**
Client: **Village of Oak Park
123 Madison St.
Oak Park, IL 60302**

This bridge proposes a tall, single mono tube steel arch with an inclined cable geometry. Given the height of the arch, it will become an iconic symbol of the area. A curved fencing and railing system, complemented by aesthetic lighting, harmonizes with the bridge's overall elegant design.
