

# Sail Marina Bridge

Dubai, UAE

Type: **Self anchored suspension**

Services: **Conceptual design**

Cost: **\$150 million**

Client: **City of Dubai, United Arab Emirates**  
**Building 20, Block A**  
**P.O. Box Number 67**  
**Dubai, United Arab Emirates**

The bridge is part of an ambitious project to create a new development zone with a dramatic canal near downtown Dubai. The proposed self-anchored suspension bridge will have cables that loop around the curved deck avoiding large anchors. The single steel tower will be inclined to emphasize the bridge's asymmetrical layout. A dramatic lighting system will help increase the visibility of the bridge along the new waterfront.
